

# **MANUFACTURERS** REPRESENTED

### Ablic Inc.

Ablic product line feature ultra-low current consumption and ultra-low voltage operation for LDO regulators, voltage detection, watchdog timers, switching regulators, and lithium-ion battery protection.

www.ablic.com

#### **APLUS PRODUCTS**

Innovative, high quality, low cost solutions for LCDs, Connectors, Custom Cable Assemblies, Injection Molding, Batteries, Including Assembly & Custom Designs.

www.osielectronics.com

## **ASSMANN WSW**

Assmann WSW Components is well known as a worldwide supplier for standard and custom tailored connectors, wire harnesses. cable assemblies, heat sinks and custom assemblies.

www.assmann-wsw.com

# Comchip Technology

Comchip Technology Corporation leads in the design and manufacture of SMD discrete semiconductors. With innovative research and patented manufacturing capabilities, Comchip offers TVS and ESD diodes, Switching diodes, Zener diodes, Schottky diodes, bridge rectifiers, fast to ultra-fast rectifiers, MOSFETs, and transistors.

**PFLITSCH** 

#### CONTA-CLIP

DIN rail and PC mount terminal blocks, cord grips, enclosures, tools and specialized wire management products for electrical and electronic connection applications.

www.contaclipinc.com

#### **Electroswitch**

Leading supplier of rotary, rocker, toggle, heavy duty pushbutton switches. Encoders, Indicator lights, sealed products, Industrial keyboards, joysticks, track balls, motion controllers, and mouse. Brand Central for Stackpole, Shall Cross, CRL/Centralab, ASM, Eaton mini, Oak Grigsby, and Gaynor.

#### Flex-Tec

Flex-Tec has a full range of equipment capabilities for electrical wire preparation and harness assemblies, metal stamping, forming, screen printing, electro-mechanical assembly in Mexico and USA.

www.flex-tec.com

#### Powerland Group

Powerland is a leading power company, providing full services, products, solutions for power electronics, renewable energy including LI-ION battery chargers.

www.fsp-powerland.com

#### **SwissBit**

Swissbit embedded storage solutions are the perfect fit for demanding embedded applications. Swissbit storage range includes SSDs with PCIe and SATA interface such as mSata, Slim SATA, Cfast, M.2 and 2.5" as well as CompactFlash, USB flash drives, SD, Micro SD, memory cards and managed NAND BGAs. www.swissbit.com

#### TRIAD MAGNETICS

Transformers, power supplies and magnetics products to include switch mode/high frequency, wall plug-in, power/audio and inductors. Custom designs for your specific application.
